

LTE Carrier Aggregation

COURSE OUTLINE

COURSE DETAILS

Training Objective: By the end of the course, the participants will understand basics of LTE Carrier Aggregation and its benefits.

Duration of Training: 0.5 Days

Max Number of Participants: 15

Prerequisite: General knowledge of LTE mobile communication networks.

Module List Detailed

Module 1: LTE-Advanced Rel-10

Topics discussed in this module are listed below:

- INTRODUCTION TO LTE ADVANCED (REL-10)
- LTE ADVANCED REQUIREMENTS
- LTE-ADVANCED ARCHITECTURE
- UE CATEGORIES

Module 2: LTE-Carrier Aggregation

Topics discussed in this module are listed below:

- RF Aspects
- CA Primary and Secondary Cells
- PUCCH Changes due to CA
- Mobility
- CA Deployment Scenarios
- Rel-11 Carrier Aggregation Enhancements
- Dual Connectivity for LTE
- CA vs Dual Connectivity
- Rel. 13 Carrier Aggregation
